

Serena Ferraro

serenaferraro21@gmail.com

My name is Serena, and I am actively seeking my first role as a Web Developer. Over the past year, I've immersed myself in coding—transforming curiosity into a passion I now want to pursue professionally.

My Journey & Skills:

I began with HTML/CSS and JavaScript, then enrolled in a rigorous full-stack development course covering:

- Front-end: Vanilla JavaScript, SASS, React.js, Redux, TypeScript.
- Back-end: Java, Spring Boot.

During the course, I built multiple projects (solo and team-based), including [briefly mention 1-2 standout projects, e.g., "a full-stack e-commerce app with React and Spring Boot"]. Since graduating, I've continued expanding my skills through personal projects [link to GitHub/portfolio if available] and self-directed learning.

Why Me?

- Adaptable & fast learner: My background taught me to pivot quickly and solve problems creatively.
- Collaborative mindset: Though I excel independently, I enjoy teamwork and thrive in agile environments.
- Flexible: Open to hybrid, remote, or on-site work—and willing to relocate for the right opportunity.

What I'm Looking For

A role where I can contribute to meaningful projects, grow alongside experienced developers, and refine my skills further. I'm particularly interested in [mention specific interests, e.g., "front-end development with React" or "scalable back-end systems"].

Let's connect! I'd love to discuss how I can add value to your team.

Pre-settled Status

Eligible to work/live in the UK until 2030

Languages

- Italian: Native
- English: Fluent
- Spanish: Beginner

Certifications

- Full-Stack Developer
 - AWS - Basics
- JavaScript Data Structures & Algorithms
- Responsive Web Design

Education

Scientific High School Diploma

Interests

Chess, Hiking, Cooking, Travelling

Gaps

2018–2020 – Working Holiday Visa in Australia

2023–2024 – Working Holiday Visa in New Zealand

Profile

Passionate junior Full-Stack Web Developer with a recently completed intensive bootcamp in modern web development. Eager to apply my skills to build scalable, user-centric applications. Quick learner with a problem-solving mindset, committed to writing clean code and contributing to collaborative Agile teams. Seeking an entry-level role to grow professionally while delivering tangible impact.

Technical Skills

Full-stack developer skilled in HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Redux, and backend technologies including Java and Spring Boot. Experienced in building responsive web applications, working with RESTful APIs, and collaborating in Agile/Scrum environments. Strong problem-solving, adaptability, and time management skills. Fluent in English and Italian, with basic knowledge of Spanish.

Work Experience

2023 – Disneyworld – Cast Member

Managed operations in a high-volume setting, providing exceptional guest service. Processed payments, accommodated special requests, organized bookings and ensured seamless dining experience.

2022–2023 – Smartlynx Airline – Flight Attendant

Ensured passenger safety and comfort on Airbus A320/A330 during European/intercontinental flights. Performed emergency procedures and assisted passengers with special needs.

2021–2022 – Ryanair – Flight Attendant

Trained crew member on Boeing 737s. Executed emergency procedures and assisted special needs passengers.

2017–2018 – The Sherlock Holmes Pub – Bar Staff

Prepared beverages, managed full-service ops: food orders, payment processing, and reservations in a fast-paced environment.
